WISEdata Finance

**Financial data goes directly from
your financial data system to DPI
(just like your SIS today)**

WISEdata Finance

- **Data feeds directly into DPI financial reporting**
- **SFS reports focus on additional details & specific aid programs**

Goals of WISEdata Finance

1. Improved data accuracy
2. Reduced reporting burden
3. Better public reporting

Improved Data Accuracy

- **Eliminate manual steps between your financial system & our reports**
- **Ensure that corrections are made on your books & reported to DPI**

Improved Data Accuracy

- **Better & more flexible automation of SFS Team annual data reviews**
- **Links from WISEdata Finance to other DPI financial systems**

Reduced Reporting Burden

- **Retiring the PI-1504 Budget Report—statutory reporting requirement will be met with a WISEdata Finance snapshot**

Also retiring the School Level Budget

Reduced Reporting Burden

- **Eliminating the SE reports and separate levels of WUFAR detail**

Fall 2022: New Special Ed Aid claim will link to WISEstaff, ELO, and WISEdata Finance

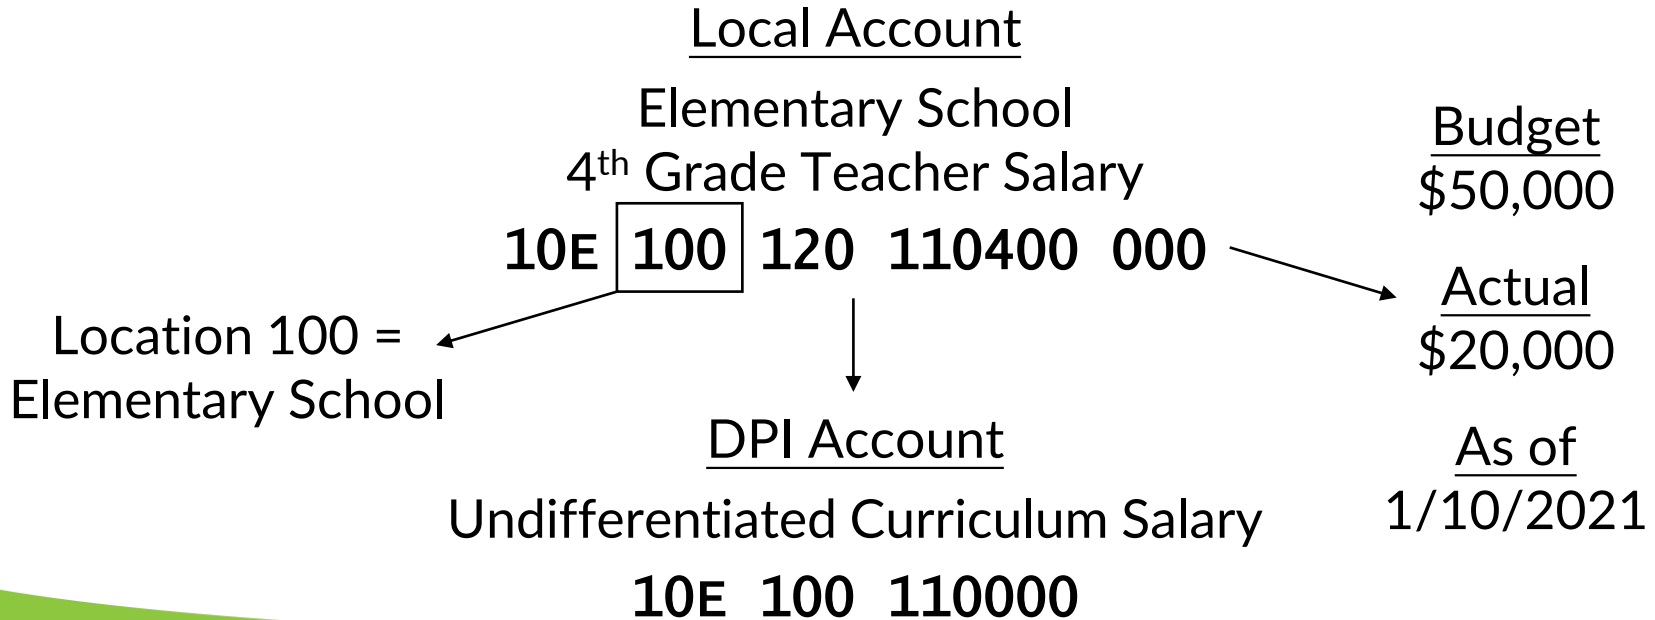

Better Public Reporting

- **Capacity to link WUFAR accounts directly to federal reporting categories**
- **Ability to support legislative financial transparency initiatives**

WISEdata Finance Ed-Fi Model

What does this remind us of?

WISEdata Finance Mindset

- “Doing the report” means pushing clean data
- Fixing your books is how you fix your reporting

The screenshot displays the WISEdata Finance application interface. At the top, there is a navigation bar with links for Home, Validation Messages, Data Reviews, Account Reviews, and Admin. The user is identified as Daniel B (Independence Sch Dist). Below the navigation bar, there is a section for Alerts, with a filter for School Year: 2021. An alert titled "Open Beta Testing" is shown, indicating that data submitted for the 2021 school year (FY 2020-21) will be considered test data. Below the alerts, there is a section for Validation Message Summary, which includes a table comparing validation counts for the 2020-2021 and 2019-2020 school years. The table shows counts for Data Format L2, Budget L2, and Actual L2 validation counts. At the bottom, there is a section for Data Pipeline Status, which includes a dropdown menu for Vendor(s) and a search bar for Vendor / WISEdata Communication Status.

	2020 - 2021	2019 - 2020
Data Format L2 Validation Count	0	111
Data Format L2 Validation Count	28	0
Budget L2 Validation Count	0	2
Budget L2 Validation Count	1	0
Actual L2 Validation Count	0	16

Quick Demo

The screenshot displays the WISEdata Finance portal interface. The top navigation bar includes links for Home, Validation Messages, Data Reviews, Account Reviews, and Admin, along with a user profile for Daniel B (Wis Dept of Public Instruction). The main content area is divided into several sections:

- Alerts:** A section titled "Alerts" with a "School Year: 2021" filter. It contains one alert: "HIGH Open Beta Testing" dated 1/1/2021. The alert text states: "WISEdata Finance is in the Open Beta testing period. Data submitted for the 2021 school year (FY 2020-21) will be considered test data and not used for more...".
- Validation Message Summary:** A table comparing validation counts for the 2020 - 2021 and 2019 - 2020 school years.
- Data Pipeline Status:** A section showing "School Years" with checkboxes for "2020 - 2021" and "2019 - 2020", both of which are checked. Below this is a "Vendor(s)" section with a dropdown menu.

	2020 - 2021	2019 - 2020
Data Format L2 Validation Count	0	0
Budget L2 Validation Count	0	0
Actual L2 Validation Count	0	0

Vendor / WISEdata Communication Status

This section provides a list of vendors used by your district that you have approved for integration with WISEdata Finance. **The goal is to alert you of the status of the specific vendor's communication in the last 24 hours.** Vendor RFAD transactions may be included or excluded depending on whether the user setting is check /

Help and Customer Service

- **Getting set up in WISEsecure:**
One-page guide
at dpi.wi.gov/sfs/wdf

The screenshot shows the WISEsecure help page. At the top, it says 'WISCONSIN DEPARTMENT OF PUBLIC INSTRUCTION'. Below that, the heading is 'What is WISEdata Finance?'. The text explains that WISEdata Finance is Wisconsin's next-generation financial reporting system for school districts and other local education agencies (LEAs). It states that financial data flows directly from financial software systems to DPI, as is currently done for WISEdata student data reporting.

Below this, it says 'To get started using WISEdata Finance, you'll need to request access to the application through WISEhome. Then, users can add a financial management system subscription in Ed-Fi Credential.'

There are two main sections:

- Request Access to WISE Applications in WISEsecure**
You need to request access to both Ed-Fi Credential Application and WISEdata Finance.
 1. Log into [WISEhome](#) using your WAMS ID or a district or agency email account.
 2. In WISEhome, select **Request Access** at the top of the screen.
 3. On the Customer Request Access form, fill out the required fields, including your **District**, which schools within that district you need access for, **Job Title**, and the **Applications** you're requesting access to. You can also include **Comments** to explain why you need access. Once you fill out the form, click **Request Access**.
 4. Once you've submitted an access request, you can check the status of your request by going to the **App Request Status** page. Search for pending access requests by **Request Date**, **Organization / Suborganization**, **Application**, or **Role**. You'll be notified by email and on the App Request Status page when your request is approved or denied.
- Add a Financial Management System Subscription**
The Ed-Fi Credential application generates encryption keys and secrets that are used to establish a secure connection between the vendor system and DPI. To add a vendor subscription for your financial management system, please follow the below steps:
 1. Log into [WISEhome](#) and open the **Ed-Fi Credential application**.
 2. Under **All Schools**, click the **Add** button to add a new vendor subscription.
 3. In the **New Subscription** window, fill out the following fields:
 - **Vendor Name:** Select your vendor from the drop-down list.
 - **Resource Access:** For your financial management system vendor, choose **'Write on local account, budget and actuals'**.
 4. Once you're done, click **Save Changes** at the bottom of the window to add the vendor subscription.
 5. Once your vendor is added, back on the main page, you will see them listed along with security credentials (API key and secret). Your security credentials (API key and secret) should be kept private and should not be shared.

There are also two screenshots of the WISEsecure interface. The first one shows the 'Customer Request Access' form with fields for District, Job Title, Applications, and Comments. The second one shows the 'New Subscription' window with a dropdown for Vendor Name and a list of Resource Access options.

WISEdata Finance Timeline

IMPORTANT: Current PI-1504/PI-1505 Budget & Annual Reports are still required for 2020-21 reporting.

Getting Ready: Now

1. **Get set up with your vendor when they inform you that they're ready to onboard you for WISEdata Finance**

What if our software isn't supported?

- **Alternative Reporting Mechanism (ARM) under development**

Only an option if your district/LEA does not have Ed-Fi certified financial software

Requires DPI approval to use

Involves account-level file upload

Getting Ready: Now

2. Start cleaning up your local Chart of Accounts—what do you get in your vendor or PI-1505 invalid account listings?

Fund Balance Accounts

Dec. 2020 Survey

Over half of districts were still
using the old (pre-WUFAR Revision
17) fund balance accounts

Fund Balance Accounts

Obsolete since March 2011 (pre-WUFAR Revision 17)	Current (3-digit level, some have greater detail required)
931000 Reserved	935000 Nonspendable
932000 Designated	936000 Restricted
933000 Unappropriated	937000 Committed
	938000 Assigned
	939000 Unassigned

Getting Ready: Now

3. **Send your 2020-21 data
to test your connection &
familiarize yourself with
WISEdata Finance**

Getting Ready: Summer & Fall

1. Keep your year end & audit processes on time

Reconcile cash to May 31 in June, then reconcile to June 30 in July

Stay on top of your pre-audit/audit checklists

School Finance Fact

#1 reason for late reports & audits

**Cash was not reconciled to June 30
when the auditors showed up**

Getting Ready: Summer & Fall

2. Complete and submit your
2020-21 PI-1505-AC, PI-1505,
and School Level Annual
Reports on time

Getting Ready: Summer & Fall

**2½. Make sure your PI-1505 ending
balances match the ending
balances on your books!**

WISEdata Finance will not collect beginning (-001)
and ending (-002) balances—your PI-1505 ending
balances for 2020-21 become your starting
balances in WISEdata Finance for 2021-22

Getting Ready: Summer & Fall

3. After your PI-1505 is submitted, send your 2020-21 data to WISEdata Finance again and compare the two

We'll be doing our own comparisons as well
